For you LEGO Mixels fans, you already know that you can mix and match shapes to create a new Mixel character. LEGO has provided you with a number of instructions on how to create a Mix, Max, or Murp character. If you combine certain mixels together, you will get a Mix and one character will have more control than the other. If you combine all three characters from the same tribe, you can create Max. If you combine Mixels that don't have synergy with each other, you'll get a Murp. This new Mixel will have a unique personality and can not be controlled. Check out all the characters you can create on the mini site. Keep in mind that not all of the characters listed have instructions, but you can feel like creating your own. Home mixel_admin August 9, 2015 Were you looking for an episode of the same name? When some Mixels unite, there is a chance that he may fail and become Murp - a strange, uncontrollable and sometimes even dangerous mixed mixel. Murps can occur when one or more of Mixels are amazed when using Cubit. All of Murps in season 1 were voiced by Fred Tatasciore. The contents of the show list of Murps Cartoon LEGO There are also Murps made of LEGO bricks using Mixels kits. Some of them are shown in the show. However, due to the endless construction possibilities, you can use the parts to make any new creature out of any number of sets, and not necessarily build on the book. The following list shows all the official Murps that LEGO showed. Series 1Series 2Series 3Series 5Series 6Series 8Series 8Series 9 Unlike mixes and maxes, Murps does not have any Mixel is dominant. It is unknown when the two Mixels will be Murp, but this most likely happens when one or both Mixels are caught off guard, as seen by Fang Gang Log Toss, High Five, and Murp Romp. Flynn and Krader Merp appeared most of all the other murps, appearing in two episodes. On the LEGO website on the Murp page, The Line says: Combine two, three or even four Mixels depending on how you like it, and it becomes MURP ... which was later proven in Mixel Moon Madness with Vulk, Shuff, Slumbo, Jawg, Tentro, and Footi Murp. In Calling All Mixels and Mixels.com, in some cases Murp is the result of combining two mixels that don't have Mix. This leads to the destruction of Kubit and nothing happens. During season one, Murps usually only said the word Murp and nothing else. Starting with the second season, Murps can now speak in full sentences and seems smarter. Murpball is based on Murping. Also in the game said, singular Mixels could be murped with Cubit Ball. Some descriptions of the Murp episode use the term Mux instead of Murp. Maybe it's a preliminary name for Murps. In Every Knight Has Its Day, Murps seems to be more messy and out of scrambled parts rather than being a brand new creature made from the two Mixels involved. This is most noticeable during the game Murpball. All series from last year only one LEGO Murp design released. No Murps appeared in Nixel, Nixel, Leave, noting every knight has his day as the final episode containing Murps. Every knight has its day has the most murps in the episode. Construction InstructionsBricks - PiecesHelp TopicsDevice GuideCustomer ServiceBuilding InstructionsBricks - PiecesHelp TopicsDevice Guide Mixels es una serie animada de televisin de Nickelodeon, sobre unos peque'os seres fant'sticos, coloridos y creativos, que tienen la capacidad de combinarse mezclarse entre si, para crear seres nuevos??? Sin Duda, llevar cabo algo asi en el mundo de la animaci'n basta con tener un buen dibujante o computador, pero en la vida real, s'lo un juguete como LEGO nos puede dar la flexibilidad para lograrlo. Es por eso que en Febrero de 2013, series sali'la primera de estas figuras, series y pr'ximamente saldr'n nuevas. Los Mixels se agrupan en tribus seg'n su color, lo que se les liga un poder. Es asi como tenemos en la serie roja a los infermitos, cuyo poder es el fuego, los Grises o negros Cragters, que son de roca, y los el'ctricos electroidos amarillos. Cada Tribu consta de 3 miembros, que son: Flain, 58 Piezas Vulque, 58 pieza and 11piezas (Nicsel) Sorch, 45 Piezas Krader, 58 Pieza and 8 Pieza (Nixel) Seismo, 50 Piezas Schuff, 51 Piesas Teslo, 44 pieis and 10 pieis (Nixel) Zapdor, 61 Piesas Voelectro, 70 piisas Vulk, Krader-i-Teslo traven piehas armar 1 Nikzel (Ade Del Mixel). Todos traen varias piezas extras (de 3 a 5). En el interior de cada envase encontraremos, 1 bolsa transparente all parts of Mixel (and Nixel if you bring one), and a guide to creating the specified Mixel. They are all easy to assemble, with new parts that allow you to introduce entertaining construction techniques for a novice builder, and a good overview of the technique for the most advanced builder. On the other hand, a number of new parts are included to achieve movement, and screen-printed parts for more details. They bring joints to the limbs, allowing you to place them in different positions, play with them or create entertaining scenes. MEEKS, MAX, MURP???? Each bag brings about 60 pieces, so the assembly of your Mixel is relatively fast. But that's not where the fun ends. As in the animated series, when two mixes of it or different tribes come together, with the help of qubits in the process called MIX, a third Mixel is created, with new powers and features. This gradually increases game combinations and alternatives. Although the mixel assembly instructions indicated in the bag come in each envelope, I leave you a link to the download instructions for assembling a different MIX. If MIX wasn't fun enough, you can try MAX, which is a process in which 3 Mixels from the same tribe come together to form a much bigger and more powerful third. Again, I'll leave you a link to download the MAX instructions!! However, not everything goes well when The Mixels get together. Sometimes there may be a process error, and instead of having a MIX, MURP is achieved, resulting in a strange and uncontrollable Mixel, with an unpredictable personality. Here you can also download instructions for MURPs. NIKSELS??? Mixels, as we mentioned with fun and creative creatures, and are characterized by their bright colors. But not everyone in this universe is like that. There are NIXELS that are antagonists of MIXELS. Their goal is to disarm and destroy the world around Mixels, even the MIXs they generate. In fact, there is nothing that Nixels hate more than to see the power that Mixels acquire with a good MIX or even in MAX Los Cubits are a natural resource in the world of Mixels that allow them to perform MIXs, MAXs and MURPs. They have a limited number, so the Knicks are aiming to destroy them, and thus avoiding the transformations of Mixels. Also, another way to enjoy Mixels, like any polybag set or that brings all its parts in one bag, is to collect them without opening the bag. Entertaining challenge, you dare to do it??? Mixels Series 2 is scheduled for release in May 2014, Series 3 in August, and the fourth part will be in February next year. Other colors will be included in the tribes (heavenly, purple), which will increase the combination of these curious creatures. Build a new and entertaining LEGO collection!!! Lego!!!
