App Info Five years ago, Carl Johnson escaped from the pressure of living in Los Santos, San Andreas, a city tearing itself apart with gang troubles, drugs and corruption. Where movie stars and millionaires do their best to avoid dealers and gangbangers. It's the early '90s. His mother was killed, his family broke up, and his childhood friends are all headed for disaster. On his return to the neighborhood, a couple of corrupt cops framed him for murder. CJ is forced into a journey that takes him around the state of San Andreas to save his family and take control of the streets. Rockstar Games brings its biggest release on mobile, but with a huge open world covering the state of San Andreas and its three major cities - Los Santos, San Fierro and Las Venturas - with improved visual fidelity and over 70 hours of gameplay. Players can play basketball, go shopping, make friends, and you can act as a doctor, firefighter, etc. Meanwhile, in the game, players can get vehicles, motorcycles, planes, tanks and other vehicles. You can also use different types of weapons to fight. Finally, in the game, you have to eat food to get energy to maintain your life. Now start exploring the city. FOLLOW US GTA: San Andreas is a full-fledged port of open-world games, the capabilities of which are fully consistent with the desktop version. A boundless open world and complete freedom of action is what attracts gamers to San Andreas so much. As in the PC version, users are left to try on the role of Carl Johnson, who decided to take on an unfair fate. The gameplay of 70 hours of filming, hijackings and other illegal missions, as well as the ability to travel around exact copies of Las Venturas, Los Santos and San Fierro - who will refuse? The game will make life much easier for Carl Johnson with a large arsenal of equipment, weapons and cars. The variable control and graphics control system has been successfully adapted for touchscreen displays. For combat mode, you'll get us the bottom left of the screen, and a series of action keys in the right driving mode includes skilful interaction of napkins and taps. Perhaps the character models here look even better than in the computer version. The developers have also reworked the textures and the game of light. The physical system has undergone some changes, of course, in the direction of improvement. Wide graphics will allow you to use all the features of mobile gadgets to play in GTA: San Andreas.
